

February 26, 2009

Dear Parents:

We have started the student course selection process for the 2009-2010 school year. While this process will be ongoing over the next two months, I want you to be aware of all of our course offerings for 9th – 12th graders.

We will maintain our core subject offerings as well as increase Advanced Placement courses at both T.F. North and T.F. South. In addition, students can look forward to expanded opportunities in:

- Math
- Science
- Career & Technical Education programs
- Physical Education choices
- Dual college credit opportunities (11th & 12th grade)
- South Suburban College Courses (12th grade)

If you have any questions regarding the selection of courses for your student, please do not hesitate to call your child's counselor or Principal. [Click here to view course selection form.](#)

When the new school year begins, please encourage your student to participate in many of the extracurricular sports, clubs and activities that will continue to be offered at our campuses.

Sincerely,

Creg E. Williams, Ed.D.
Superintendent
